INTERLOCKING INFRA LLP

Nurture Life,
Sustain Earth

ABOUT US

With a deep-rooted understanding of the construction industry, Aravat is dedicated to providing durable paver block solutions. Every product, from the smallest paver to the largest interlocking tile, embodies our mission of shouldering the nation's weight. Hum hain mazbooti ke saathi.

OUR LEGACY

Fourteen-year-old Rajiv wanted to become a soldier. But a bankrupt family business, an especially large family, and a highly-developed sense of responsibility meant that this dream would never come to fruition. At least, not in the manner that he had dreamt it.

At a stage in life when most students would be preparing for their entrance examinations or cricket matches, this 'boy' left his education and went out into the world of men - went out to earn a living. His first business was one of garments. He made a corner of his father's office into his stitching unit, and he supplied the clothes - himself- to the vendors under Grand Hotel.

By the age of 24 he had traded many different kinds of goods, including sand, stone chips, and copper products. Each endeavour was taken up at the dictates of the moment, and the family was still living from hand to mouth. But with each endeavour the man became more of a businessman. Each challenge hardened the soldier.

Success finally began to happen in 1997, when Rajiv and his elder brother established their own copper melting and casting facility. Looking after production, Rajiv ensured that each order was executed with military precision. Eastern Copper Pvt. Ltd. grew from strength to strength and unit to unit, from capturing the Calcutta market to becoming a renowned exporter of copper semies in East Asia.

However, life's challenges never stop. Fortunately, neither are soldiers trained to give-up. As Rajiv approached his sixth decade, he found himself challenged to make a mark in an industry unrelated to the one in which he had thirty years of experience. Apart from metals, he would also be manufacturing Paver Blocks. This is where the story of Aravat begins.

In a nation obsessed with start-ups and their amateur entrepreneurs, here is a sixty-year-old running his business with the energy of a fresher and the wisdom of a veteran. To say nothing of the military discipline that comes naturally to him.

Each paver block produced at Aravat is a stepping stone on the road to India's future. It's a symbol of all that a man can achieve when his success is rooted in honesty, integrity, and work ethic.

As Aravat continues to pave the city's paths - roads, highways, petrol pumps, factories, gated communities, and industrial complexes- one block at a time, it remains solid in its mission. To give the nation an enterprise that can carry its weight.

COMPOSITION & APPLICATION

These permeable pavers replicate natural ground to significantly reduce water runoff by allowing it to filter through, resulting in the absorption of water into the ground instead of creating surface flow.

APPLICATION AREAS

Petrol Pumps

Factories

Footpaths, Gardens, Driveways

Highways

Industrial Complexes

Residential Complexes

***Other shapes and colours are available upon request.**

CLIENT TESTIMONIALS

“

We needed a reliable partner who could deliver high-quality paver blocks on time. Aravat Interlocking Company exceeded our expectations. Their products are not only durable but also aesthetically pleasing. Their team was professional and responsive, ensuring a smooth project execution.

Dhiraj Saraogi

Future Constructions

“

As a leading construction firm, we prioritize quality and reliability. Aravat Interlocking Company has consistently delivered on both fronts. Their paver blocks have enhanced the look and feel of our projects. Their commitment to excellence is evident.

Sanjay Agarwal

Abdos Oil

“

We were impressed by the dedication and expertise of the team at Aravat Interlocking Company. They understood our specific requirements and provided customized solutions.
